

# a week in denmark

## list of services

The AWiD Café at Kraftverket will provide the following services:

### **Cheap and good food**

Brunch 11-13 Price: 20-30 DKK

Dinner 18-20 Price: 30-40 DKK

In between you can buy coffee, tea, cocoa, buns, fruit and snacks. Also beer and soda. Prices will be very reasonable according to Danish standards.

### **Tourist information**

We will gather all the flyers and pamphlets we can find. These will be made available to you in the café.

### **Underground tourist information**

We have constructed a guide for the Copenhagen Underground. If something interesting is going on on the non-larp scene, you will find it in this guide.

### **AWiD information and KP07 updates**

We will have a large screen with the latest news on A Week in Denmark, and any last minute changes in the KP07 program. This information will also be made available on the net.

### **Currency exchange**

We can exchange your currency at the going rate at Forex (a Nordic exchange agency).

### **Pick-up location**

Meet up at Kraftverket before you go somewhere. The chances for you to enroll someone interesting will be greater this way. Also we would like to hear what your doing out there, just for fun. So come back to the café and tell us all about it afterwards.

### **Improvised fun**

Yup, the program has plenty of room for us to play around. So come and play with us. If you have an idea, we will probably take it up, if it is at all possible.

### **Internet computer room**

Kraftverket will have five computers hooked up to the net available for us during A Week in Denmark. So if you need a place to read mail or print out something, you can do it here.

### **Wireless internet connections**

Both the Community House and the Café offers wireless internet connections. Just ask for passwords.

### **Cosy atmosphere and nice people**

The A Week in Denmark crew are all volunteers. We are here to meet you, to party with you, simply to have fun with a lot of international larpers. So don't be a stranger, but join us and we'll have tons of fun.
